ABOUT ME

Design is a superpower. It's one of the best tools we have to unite people and change the world. I've focused my career on working with passionate people to create positive change through design.

I believe my key strength is my ability to learn. I love getting in deep with new projects, and doing so helps me generate ideas with strong conceptual foundations.

Design is all about teamwork, I love working with others as a supportive team member but I'm also a confident leader.

I seek constructive criticism constantly.

I find that time away from the desk always enriches my work. You can find out more about how I spend my downtime [here](#).
